Brand identity

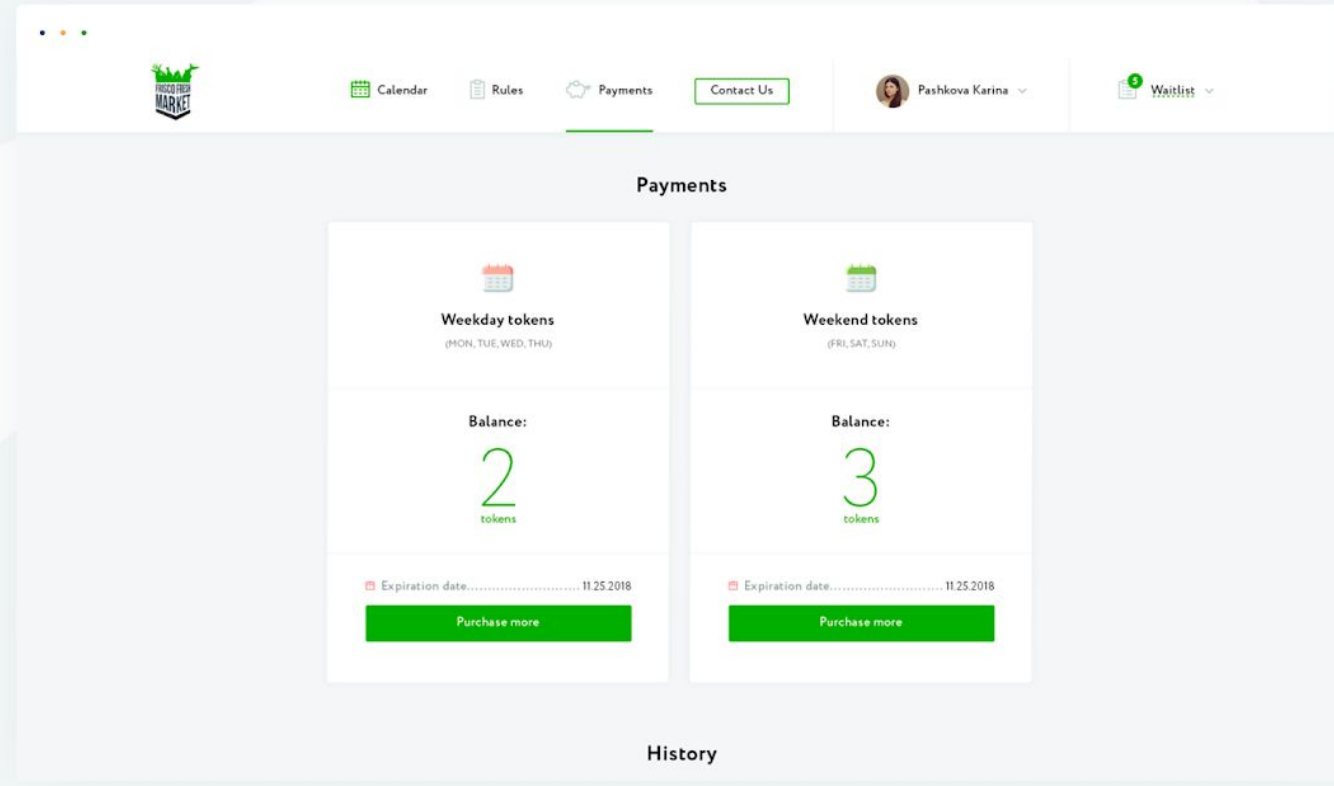

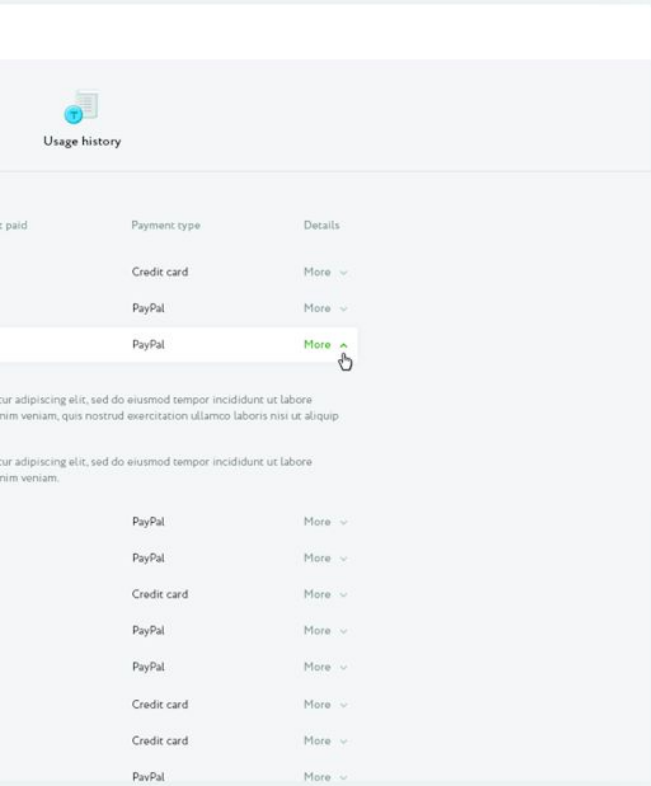

Utopia

Brand identification for coffee shop in Odessa

Our results:

- The first step was to analyze the interior style, to create the connection between taste and visuals.
- We gathered the ideas of naming and tried to represent it on the logotype;
- Designed more than 10 concepts;
- Finished with conceptual brand identity and stylish elements.

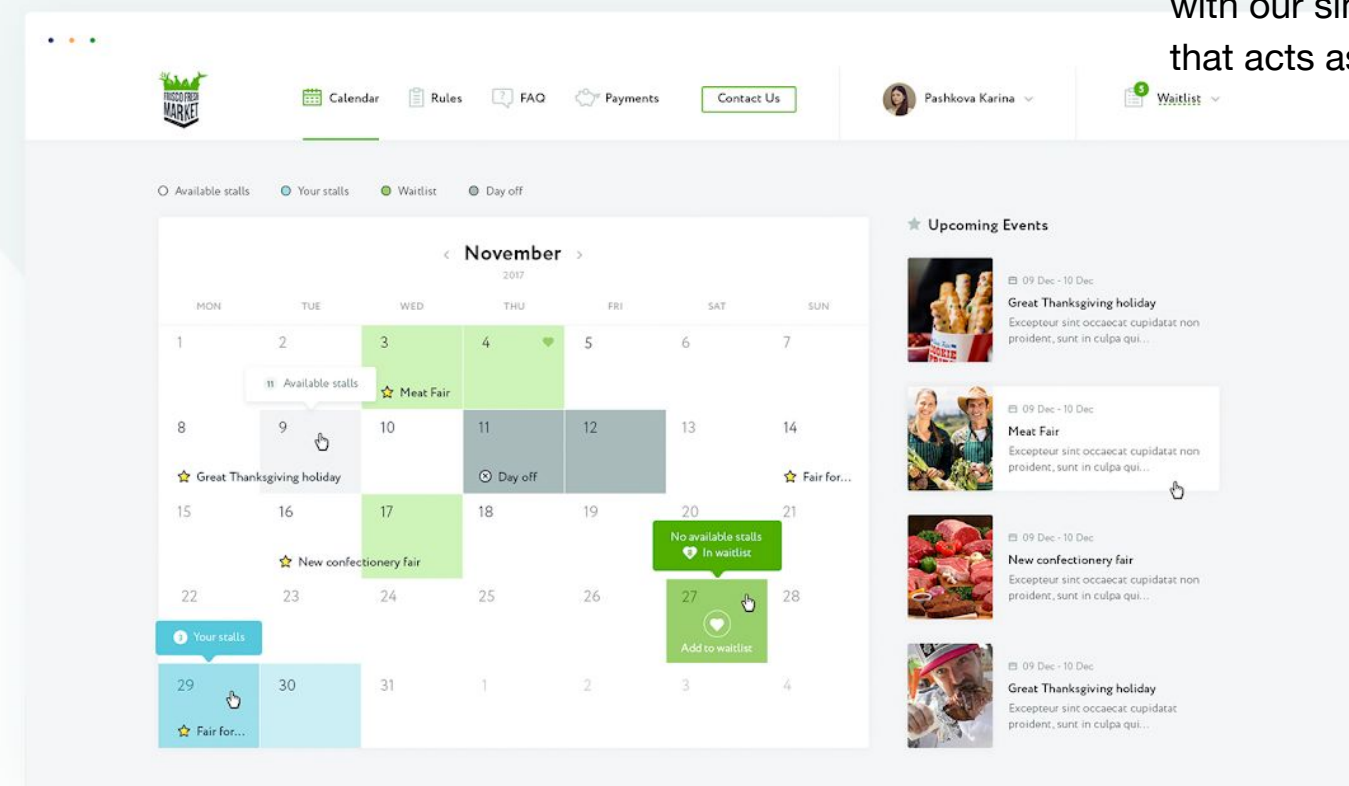

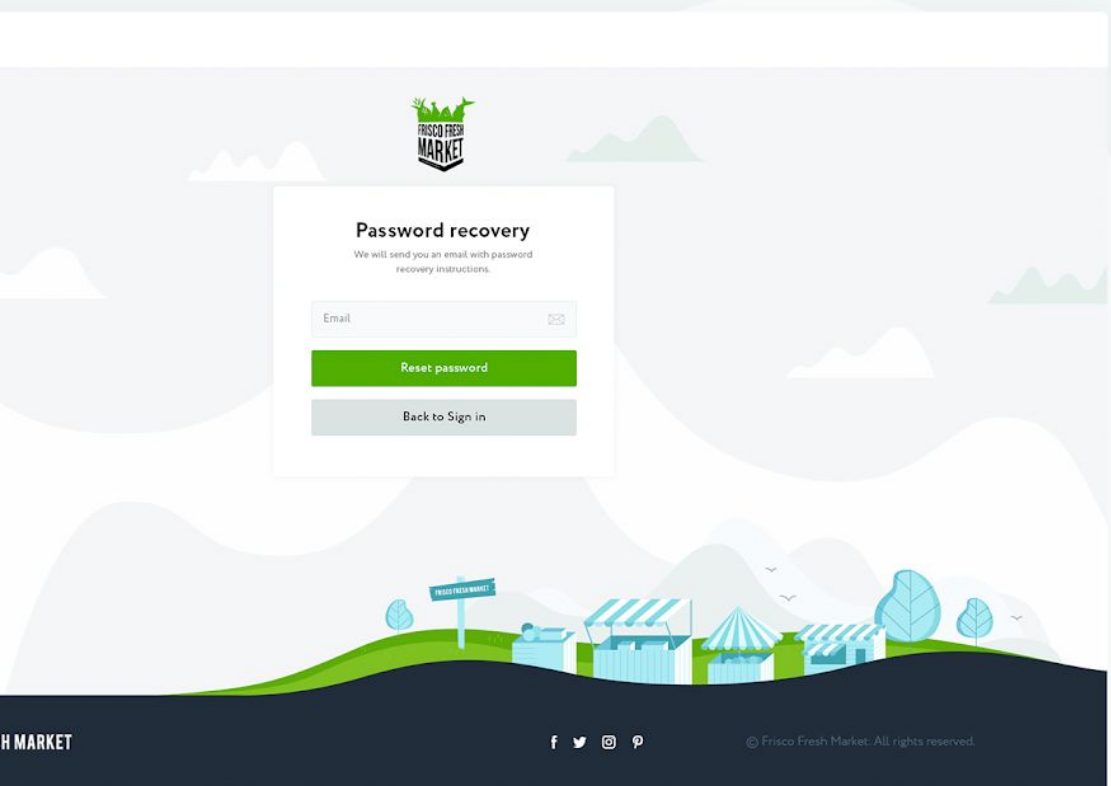

UI/UX design, Web & app development, analytics

Frisco Fresh Market

Our results:

- The team developed everything from scratch;
- Firstly we improved the logotype itself, made a chicky brand identity. We brightened colors, made visuals and other necessary stuff;
- Then we prototyped web platform, made a responsive view and programmed the front end and the back end of the product.
- We optimised business methods of the customer and helped to solve many challenges with our simple but easy-to-use control panel, that acts as a CRM as well.

Web sites, UX/UI design

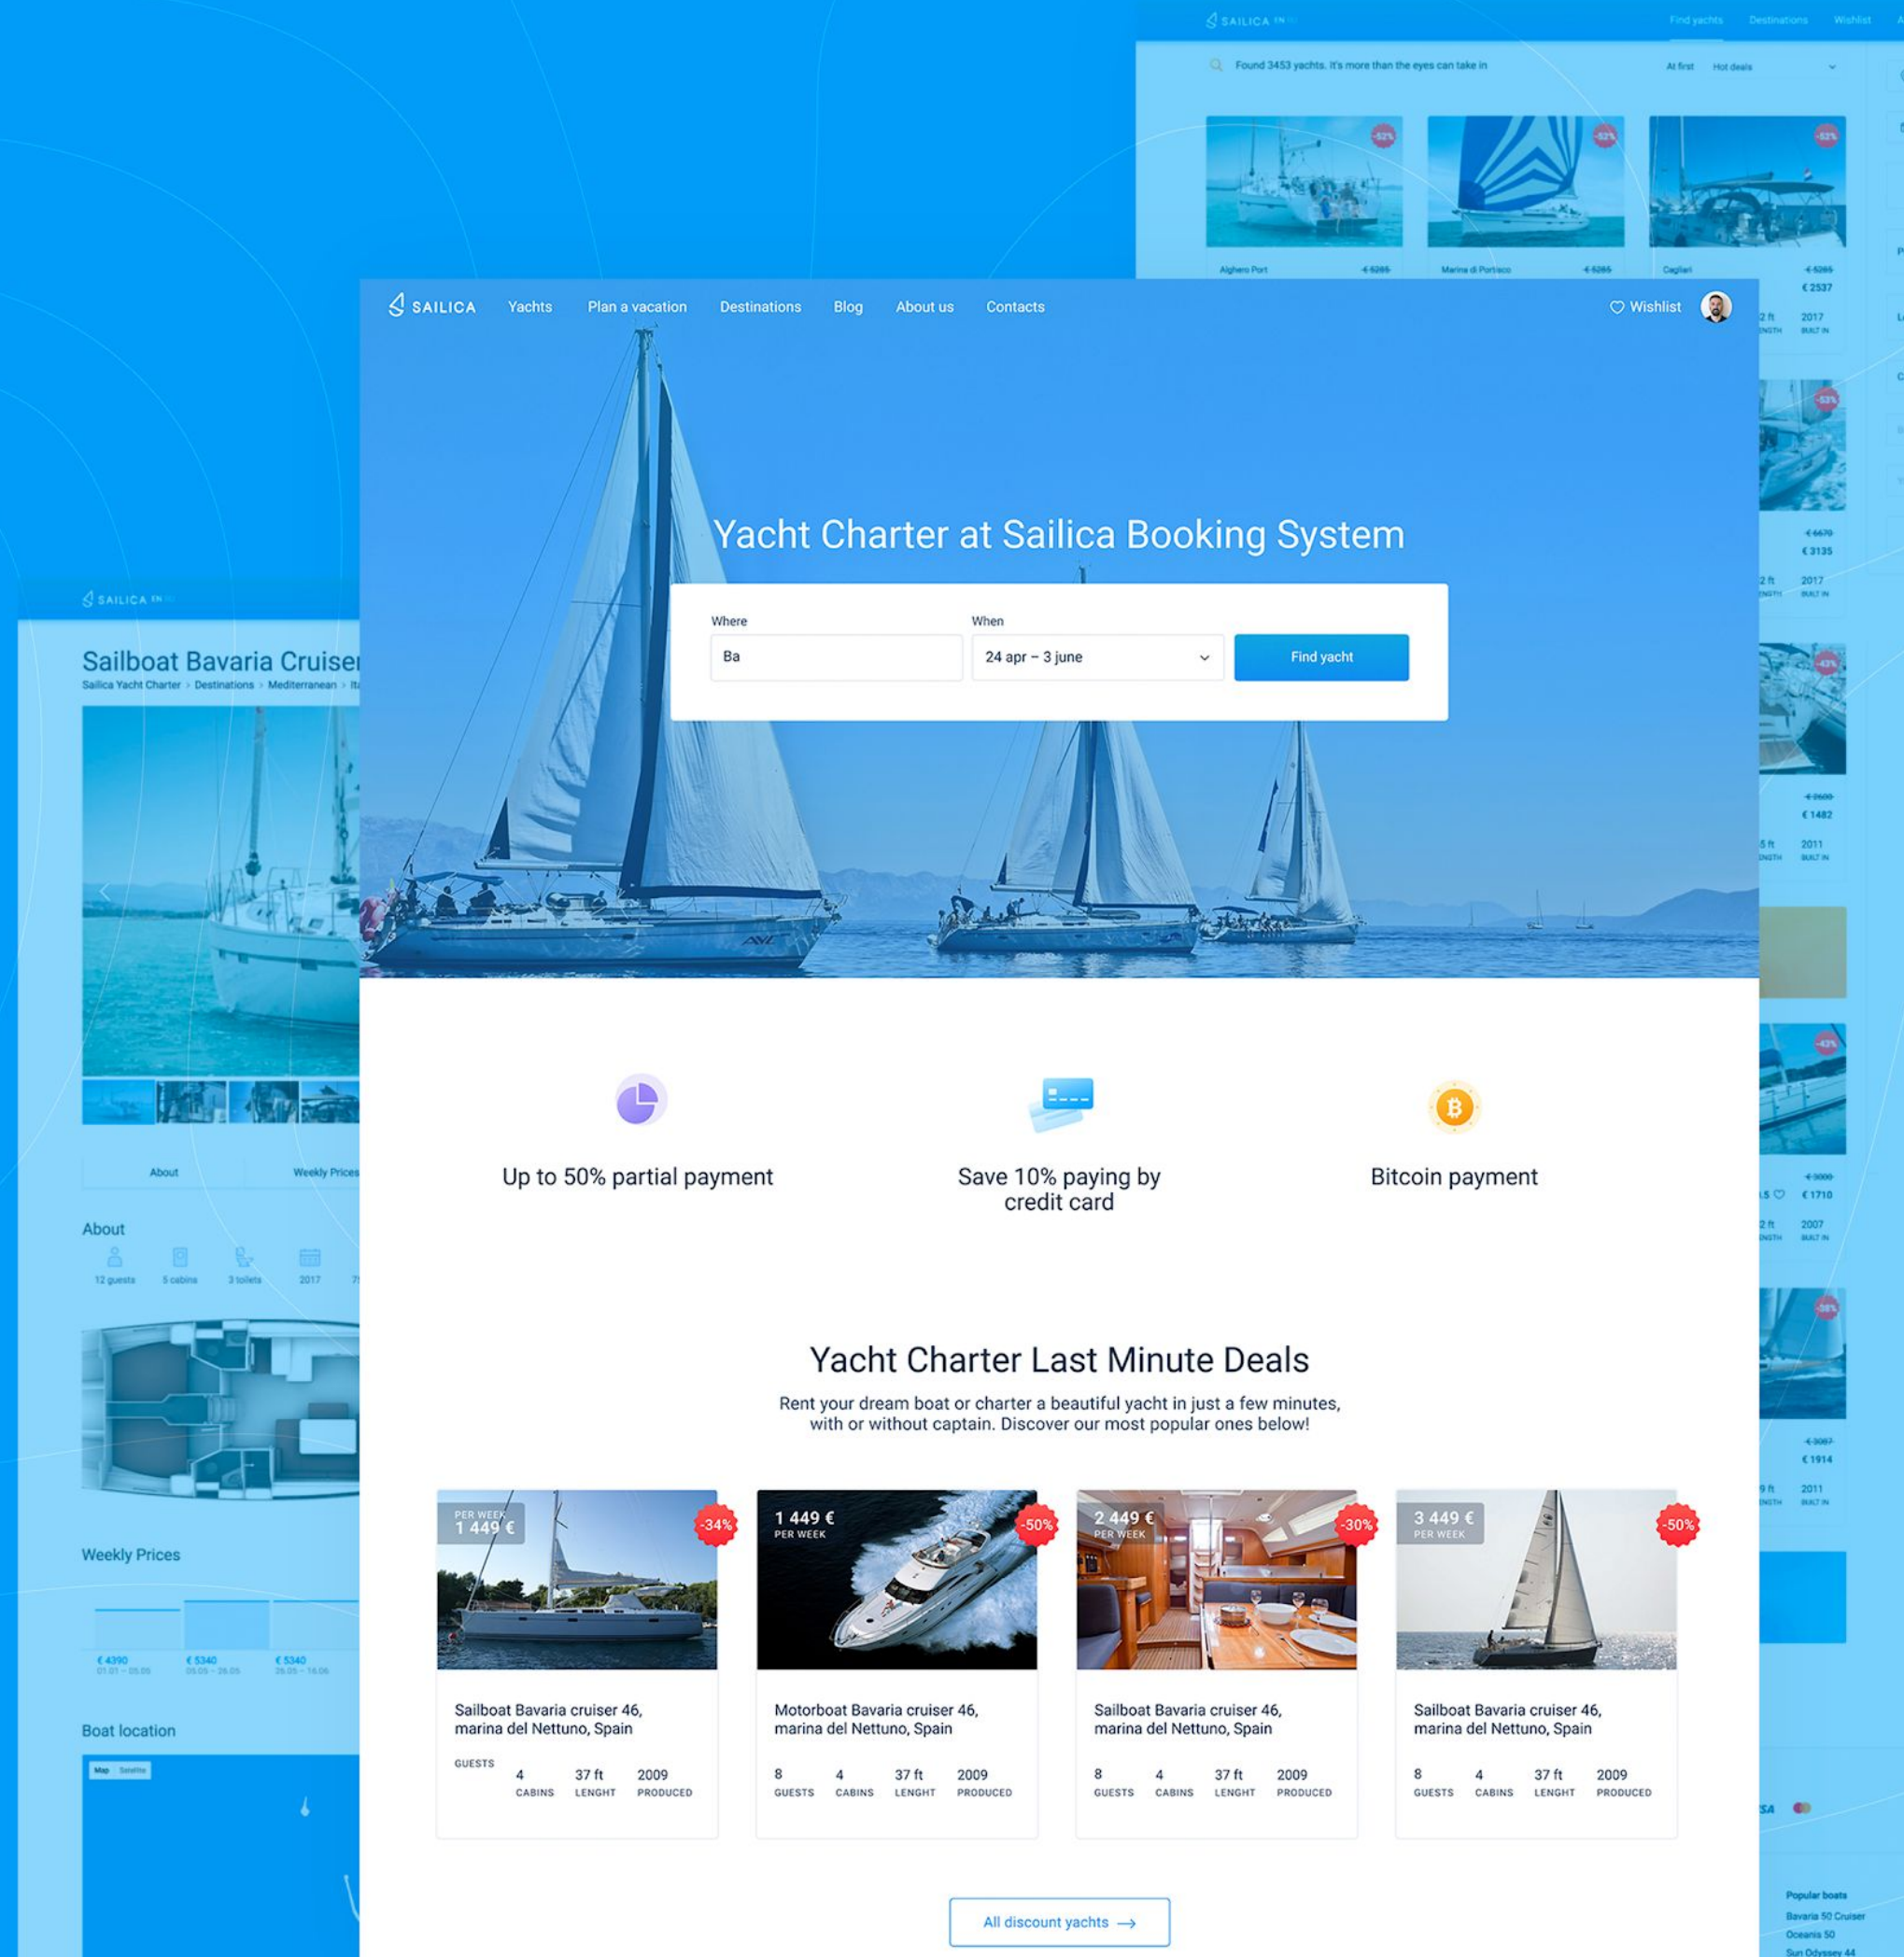

Sailica

Seeking for a yacht for your next yacht trip can be tricky. This problem is resolved by Sailica: super friendly and easy-to-use web application service that helps you to find the best charter for a yacht trip.

Our results:

- We strictly analyzed our competitors and highlighted their pros and cos;
- Designed a hot UI with the help of our UX knowledgebase;
- Launched a start up with MVP version of the service;
- Served our customers for their trips from Sailica;
- We constantly improved our website, adding new features each release.
